LOCATION Newcastle		

## DESCRIPTION

COMING SOON - Updated photos to follow (previous ad photos used) Flagship International is proud to present Felix, a highly optioned 2019 Riviera 5400 Sport Yacht that perfectly captures why this model remains one of the most desirable and well-executed designs in the Riviera range. Built at Riviera's Coomera facility and designed specifically for Australian conditions, the 5400 Sport Yacht has earned its reputation as the sweet spot in the Riviera lineup. Sporty and sleek on the water while maintaining

elegance and grace, this platform delivers an exceptional balance of performance, comfort and practicality, equally at home cruising the coastline as she is entertaining at anchor. Powered by twin Volvo Penta D11 IPS 950 pod drives (725hp per side) with approximately 1,330 engine hours, Felix offers strong, efficient performance and outstanding manoeuvrability. The Volvo IPS system, combined with joystick control at both the main helm and port and starboard sides of the aft cockpit, makes short-handed operation and close-quarters docking remarkably straightforward, even in challenging conditions. A standout feature of this vessel is the factory-fitted Seakeeper 9 gyro stabiliser, which significantly reduces roll both underway and at anchor, materially enhancing comfort for owners and guests alike. Accommodation is configured in the highly regarded two-cabin, two-head layout, with a full-beam master suite amidships, forward guest cabin with ensuite, and convertible lower lounge allowing Felix to sleep up to six when required but opens up the accommodation space for a second kids' lounge or private retreat when additional accommodation is not required. Externally, the cockpit, tender garage and hydraulic swim platform significantly extend the usable footprint of the yacht, making boarding, swimming and tender operations effortless. Importantly, Felix has benefited from consistent professional servicing by recognised Riviera and Volvo specialists, with major preventative maintenance already completed.

Principal Characteristics

- o Length Overall: 17.46m
- o Beam: 4.88m
- o Draft: Approx. 1.5m
- o Fuel Capacity: 3,000L diesel
- o Water Capacity: 800L
- o Engines: Twin Volvo Penta D11 IPS 950
- o Engine Hours: Approx. 1,330 hours
- o Generator: Upgraded Onan 17kVA (approx. 3,600 hours)
- o Stabilisation: Factory Seakeeper 9 gyro stabiliser
- o Accommodation: Two cabins plus...

- o Generator (Onan 17.5kW) serviced routinely with records on file
- o Seakeeper gyro service up to date
- o Antifoul, proppspeed to drives, IPS service and full polish - Feb 2026

#### Broker's Remarks

The Riviera 5400 Sport Yacht has always been one of the true stand-outs in the Riviera range. Perfectly proportioned on the water, easy to handle as a couple, yet large enough to comfortably entertain family and friends for extended cruising, she genuinely serves every purpose without unnecessary complexity.

Felix is a superb example of the later-series 5400, offering the highly sought-after IPS 950 drivetrain, joystick docking from multiple stations and the major advantage of a factory Seakeeper gyro for exceptional comfort both underway and at anchor. This is a yacht that inspires confidence offshore, but remains effortless around the marina.

With demand for quality late-model Riviervas remaining strong, "Felix" presents a rare opportunity to secure a turn-key 5400 available now, with extensive service history and major preventative maintenance already completed.

For buyers seeking a refined, capable and beautifully engineered Australian sports yacht, Felix represents an outstanding and immediately enjoyable ownership proposition.
